SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

TO ALL INTERESTED PARTIES

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

October 10, 2008

Permit Number: OCRM-08-219-M
Permit ID: 64510

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: John (Hank) Hofford
C/O American Dock & Marine Construction, Inc.
1533 Folly Road D-5
Charleston, SC 29412

LOCATION: On and adjacent to the South Edisto River at Tract H, Laurel Hill Road, Edisto Island, Colleton County, South Carolina. TMS#: 011-00-00-007.

WORK: The work as proposed and shown on the attached plans consists of constructing a dock. Specifically, the applicant seeks to build a 4' by 888' walkway leading to a covered 16' by 16' fixed pierhead, both with handrails. Ebbside of the pierhead, a ramp will lead to a 12' by 48' floating dock and mooring dolphin. Floodside of the walkway, a 4' by 28' catwalk will join a 3' by 34' catwalk to creating an L-shaped structure, which will provide access to two (2) 12' by 12', four-pile boatlifts. The purpose of the activity is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before October 25, 2008. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

October 10, 2008

Permit Number: OCRM-08-222-E
Permit ID: 64554

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: John Condon
c/o Forsberg Engineering
PO Box 30575
Charleston, SC 29417-0575

LOCATION: On and adjacent to the Intracoastal Waterway at 5053 Bryan Rd., Hollywood, Charleston County, South Carolina. TMS#: 248-00-00-078 and 248-00-00-089.

WORK: The work as proposed and shown on the attached plans consists of building a 340' timber bulkhead. An existing wooden and concrete headwall approximately 240' long will be replaced with a new wooden headwall located 1' beyond the critical line at one lot, and a new 100' wooden headwall will be constructed along the critical line at the second lot. The purpose of the proposed activity is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

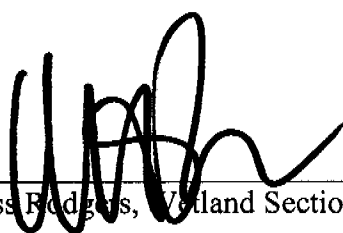

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before October 25, 2008. For further information please contact the project manager for this activity, Bill Eiser, at 843-953-0237.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

October 10, 2008

Permit Number: OCRM-08-548-S
Permit ID: 64623

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Hayden Quattlebaum
c/o The Earthworks Group
11655 Hwy 707
Murrells Inlet SC 29576

LOCATION: On and adjacent to Manmade Tributary of Main Creek at 2178 & 2182 S Waccamaw Dr,
Garden City, Georgetown County, South Carolina.
TMS#: 41-0131-069-00-00, 41-0131-070-00-00.

WORK: The work, as proposed and shown on the attached plans consists of constructing replacement structures on adjoining lots. Specifically the applicant seeks to remove the existing pierhead, boat lift, and floating dock on the northernmost lot and replace it with a 6' x 51' floating dock. On the southernmost lot, the applicant seeks to construct a 6' x 14' addition to the existing 12' x 16' floating dock. The applicant also seeks to construct a 4' x 24' walkway to connect the existing fixed pierhead on the southern lot to the structures on the northern lot. The purpose of the proposed activity is for joint recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before October 25, 2008. For further information please contact the project manager for this activity, Christopher Stout at 843-238-4528.

PERMIT APPLICATION PUBLIC NOTICE**

October 10, 2008

Permit Number: OCRM-08-925-G
Permit ID: 64770

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: John S Wigginton, Jr.
4120 Ten Schillings Way
Ravenel, SC 29470

LOCATION: On and adjacent to Huspah Creek at 234 Bull Point Drive E, Bull Point Plantation,
Seabrook, Beaufort County, South Carolina.
TMS#: R700-027-000-0118-0000.

WORK: The work, as proposed and shown on the attached drawings, consists of constructing a private dock. Specifically, the structure will have a 4'x170' walkway with handrails leading to a 10'x10' fixed pierhead with water and electricity. Located on the flood side of the pierhead will be a 12'x12' four-pile boat lift. The purpose of the dock is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before October 25, 2008. For further information please contact the project manager for this activity, Geordie Madlinger at 843-846-9400.

LOCATION: On and adjacent to Fripp Canal at 415 Tarpon Boulevard, Fripp Island, Beaufort County, South Carolina.
TMS#: R400-040-000-0649-0000.

WORK: The work, as proposed and shown on the attached drawings, consists of making additions to an existing private dock and constructing a timber bulkhead. Specifically, a 13'x13' four-pile boatlift will be placed along the ebb-side of an existing pierhead. The purpose of the boatlift is for the applicant's private, recreational use. Additionally, a 99'x 5.5' timber bulkhead will be placed along an eroding shoreline. The purpose of the bulkhead is for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 10 November 2008

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of dredging approximately 2400 cubic yards of material (0.53 acre footprint) from the existing marina basin including 550 feet of the existing channel. The final depth of the dredged area will be -2.0 ft MLW. The final width of the channel, from the marina basin to Main Creek, will be 20 feet wide to provide adequate depths for navigation. The dredged material will either be hydraulically dredged and temporarily placed in Geotubes or mechanically removed and placed in a temporary upland disposal area until sufficiently dried. The material will then be transported by truck to the Georgetown County Landfill.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact (0.53) acre of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

Pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended), the District Engineer has consulted the most recently available information and has determined that *Trichechus manatus* and *Caretta caretta*, Federally endangered and threatened species are present in the vicinity of the project. However, it has been determined that the project is not likely to adversely affect any Federally endangered, threatened, or proposed species or result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request for written concurrence from the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service on this determination.

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

October 10, 2008

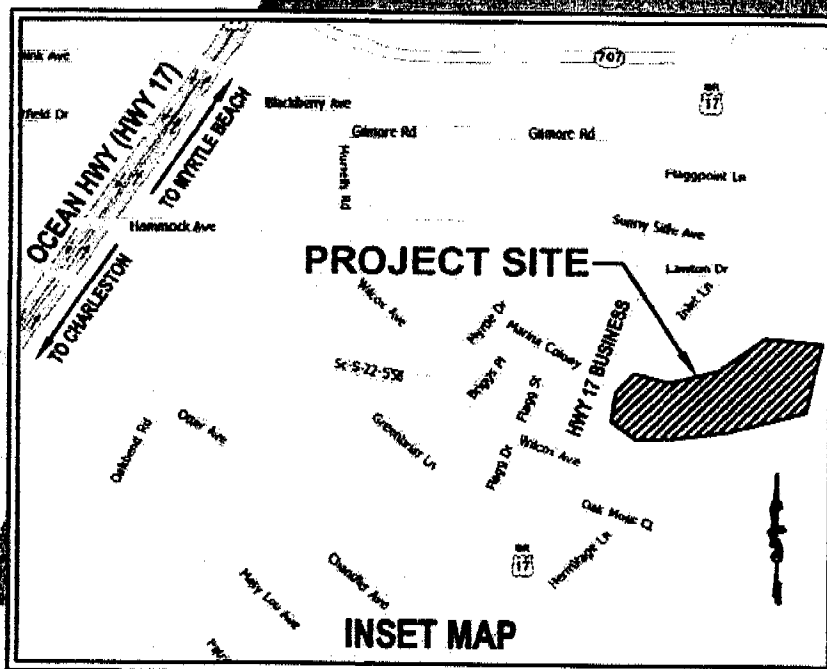

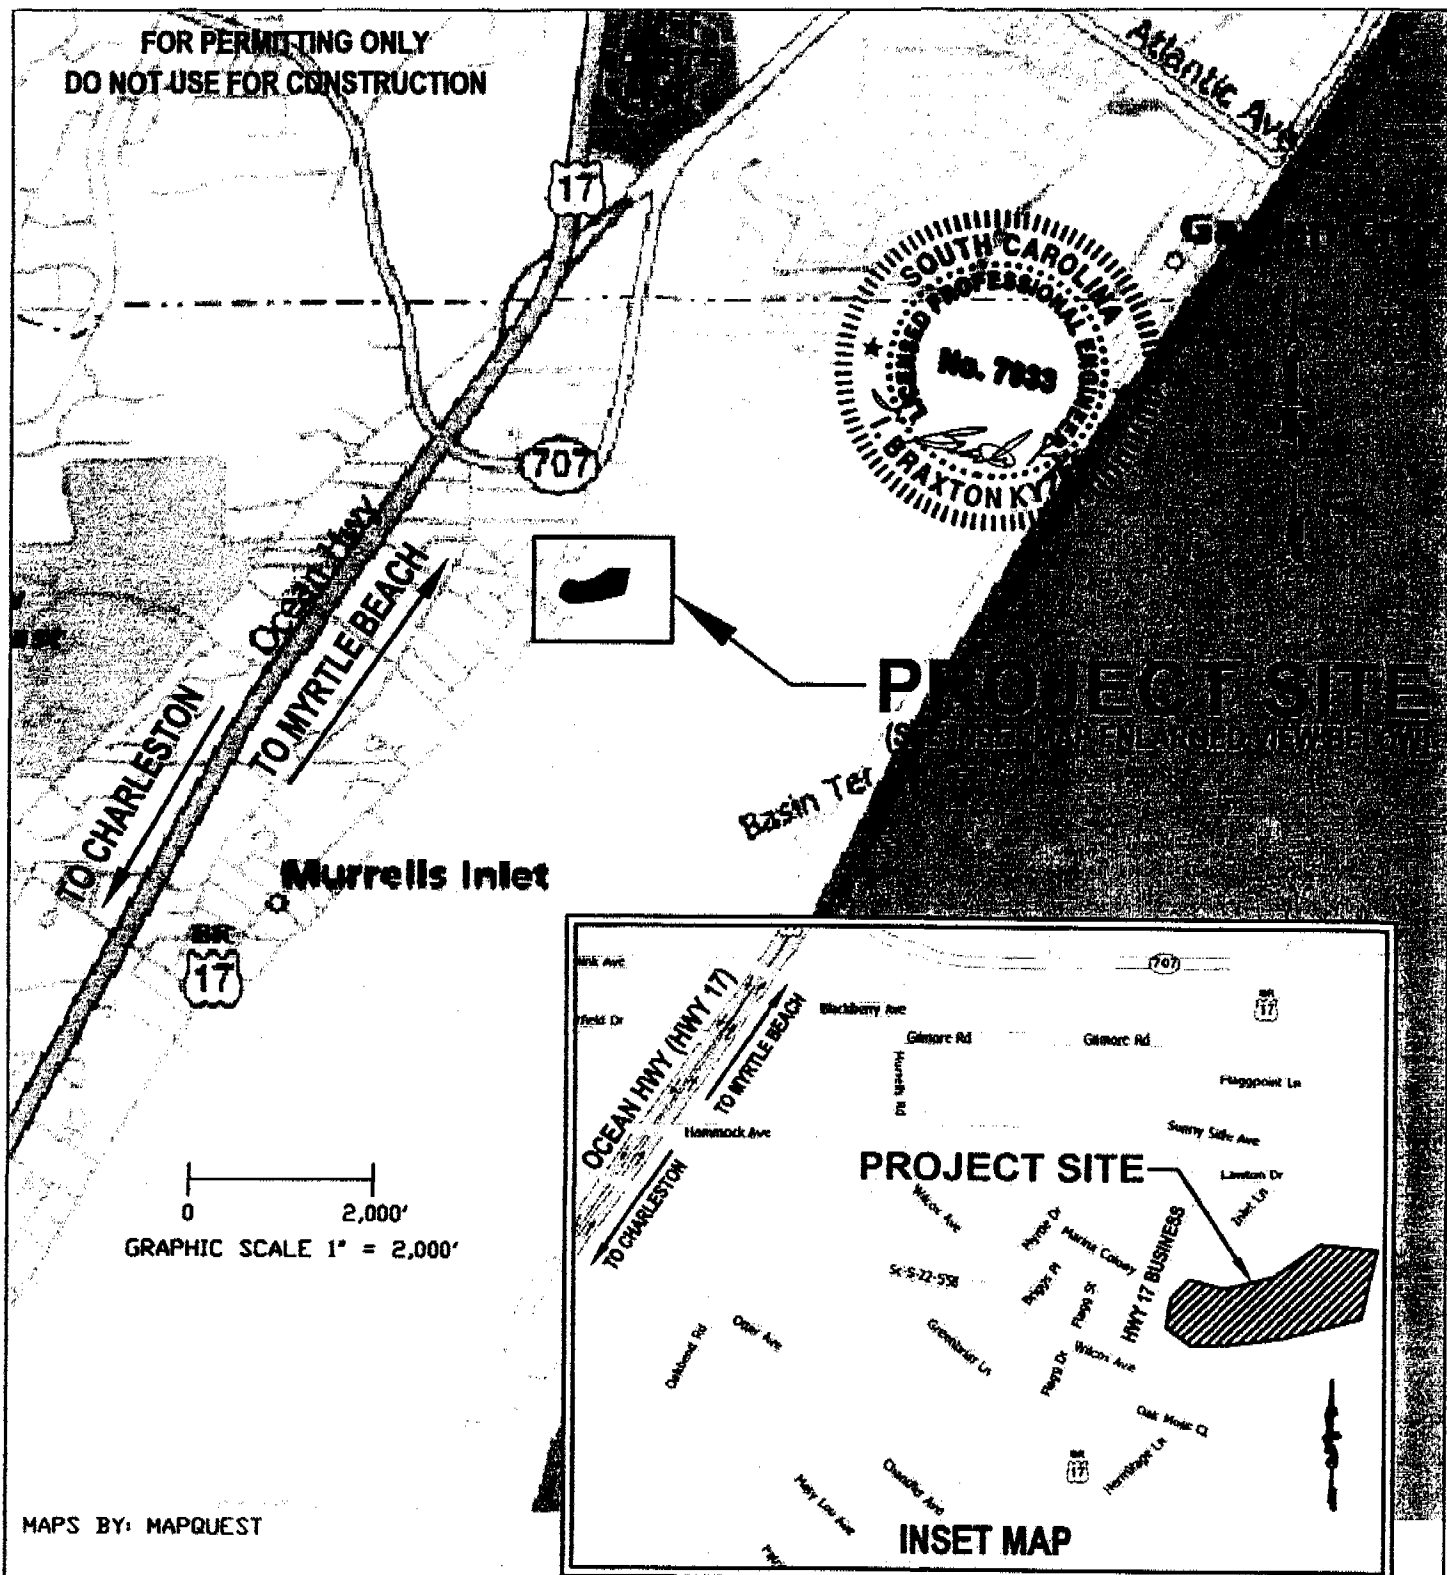

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest and will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency (EPA), under authority of Section 404(b) of the Clean Water Act and, as appropriate, the criteria established under authority of Section 102 of the Marine Protection, Research and Sanctuaries Act of 1972, as amended. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Courtney Bates at 843-365-0583.
